

BLACK MOUNTAIN KENNEL CLUB OF NEVADA – Staffordshire Bull Terrier Club of America  
13/10/2019

I would like to thank the officers and committee for inviting me to judge Staffordshire Bull Terriers at this show. Also thanks to everyone that entered their dogs under me, I do not like criticising dogs individually but I have to say that I was disappointed to see lots of mouth faults, undershot, Overshot, inverted canines, level bites. Most of the males were ok body wise but a lot of the bitches were lacking bone, tight in front and lacking rib long in back and long coupled. We as breeders must try harder to maintain the standard.

Puppy Dog 6-9 Months

1<sup>st</sup> ADORABULLS DARK NIGHT - B/Brindle, Lovely clean head, neat ears, dark eye, clean lip with correct bite, good under jaw, straight front, feet ok, level top line, correct angulation moved well
