

NORTHEAST STAFFORDSHIRE BULL TERRIER CLUB

9/10/22

Thank you for affording me your precious time to assess your stock, giving my humble opinion based on the AKC Breed Standard and my interpretation of it.

Overall, I note the quality was a little disappointing for me. We as a breed are losing the width and depth of the stafford, bone is becoming light, this is an issue that we, as custodians of the breed must address when breeding and assessing the breed. Once we lose breed type, we lose the stafford.

Wherever I judge, I have my ideal type as a vision and I'm pretty sure my final winners showed my preferred type that I see as a representation of the aforesaid breed standard.

One must also remember this fancy is a beauty contest as much as a conformation show. With this in mind, more care in preparation could have had an effect for the better when presenting stock, tails trimmed, teeth cleaned, and a good bath for some.

With that said, I really enjoyed my time and wish everyone good luck in the future.
